North Pocono High School senior Kaitlyn Froese teamed up with Penn State University's feature twirler Matt Freeman on her physics project.

Kaitlyn, captain of the North Pocono Majorettes and a Miss Trojan winner, explained six major physics topics and how they related to twirling, while Matt demonstrated the moves.

About 300 students showed up to check out Kaitlyn's presentation May 14, which was put on with the help of her 12-time world medalist and two-time baton world champion assistant.

Kaitlyn takes advanced placement classes and is a member of the National Honor Society. She plans to attend the University of Scranton and major in pre-medicine.
