

MISIURA

North
Pocono

North Pocono

Adam Misiura defines versatility.

The senior baseball player will be looked at to play first base and all three outfield positions as well as pitch and catch.

He also displays his versatility offensively, where his bat control and power allow him to hit anywhere from two through seven in the lineup.

Currently, he has a .273 batting average with two doubles, two home runs and seven RBIs through eight games.

His abilities are also demonstrated off the field. Misiura is part of the Science Olympiad team that will compete in state level competition.
